Independent Auditor's Report

To the Board of Directors
Two Rivers Cooperative
Pella, Iowa

We have audited the accompanying financial statements of Two Rivers Cooperative, Pella, Iowa, which comprise the balance sheets as of August 31, 2020 and 2019, and the related statements of savings, comprehensive income, members' equity and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Two Rivers Cooperative, Pella, Iowa, as of August 31, 2020 and 2019, and the results of its operations and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Gardiner + Company, P.C.

Notes to Financial Statements

Note 1: Organization & Nature of Business

The Company was incorporated in 1920 under Iowa Law and is operating as a cooperative for the mutual benefit of its members. Voting common stock ownership is limited to agricultural producers on a one share–one vote premise. Net savings on business transacted by members is allocated to them on the books of the Corporation or paid to them through patronage dividends.

The Company operates a licensed public grain warehouse; provides grain marketing and related services, sells feed, petroleum and agronomy in and around Marion, Jasper and Mahaska counties in Iowa.

The Company's gross revenues were derived from:

	2020	2019
Agronomy Sales & Related Services	30%	31%
Grain Sales & Related Services	26	29
Petroleum Sales & Related Services	27	25
Feed Sales & Related Services	14	13
Other Merchandise Sales & Services	3	2

Note 2: Summary of Significant Accounting Policies

The significant accounting practices and policies are summarized below.

RECENTLY ISSUED ACCOUNTING STANDARDS

In May 2014, the *Financial Accounting Standards Board* (FASB) issued *Accounting Standards Update* (ASU) No. 2014-09, *Revenue from Contracts with Customers* (Topic 606). The amendments within this ASU, as well as within the additional clarifying ASUs issued by the FASB, provide a single comprehensive model to be used to determine the measurement of revenue and timing of recognition for revenue arising from contracts with customers. The core principle of the amendment guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects consideration to which the entity expects to be entitled in exchange for those goods or services. The new standard requires a five-step model for the recognition of revenue including (1) identifying the contract with a customer, (2) identifying the performance obligations in the contract, (3) determining the transaction price, (4) allocating the transaction price to the performance obligations, and (5) recognizing revenue when (or as) an entity satisfies a performance obligation. For non-public business entities, the amendments in this update are effective for fiscal years, and interim periods within those years, beginning after December 15, 2018. The Company has elected to apply this update using the modified retrospective method of adoption. Changes in accounting for revenue recognition under ASU 2014-09 did not have a material impact on the Company's financial statements for the year ended August 31, 2020.

COMPREHENSIVE INCOME REPORTING

The Company accounts for comprehensive income in accordance with the Comprehensive Income Topic of the FASB *Accounting Standards Codification* (ASC), which requires comprehensive income and its components to be reported when a company has items of other comprehensive income. Comprehensive income includes net income plus other comprehensive income (i.e., certain revenues, expenses, gains and losses reported as separate components of stockholders' equity rather than in net income).

RECEIVABLES, NET

Receivables are shown on the balance sheet net of the allowance for doubtful accounts for book purposes. The amount of the allowance is based on historical bad debt experience and a current evaluation of the aging and collectability of receivables. For tax purposes, uncollectible amounts are charged against current operations and no allowance for doubtful accounts is maintained.

Because of uncertainties inherent in the estimation process, management's estimate of credit losses inherent in the accounts receivable and the related allowance may change in the near term.

Trade receivables with credit balances have been included in the customer credit balances and prepaid sales as a current liability.

GRAIN IN TRANSIT

In accordance with industry practice on contracts, subject to final grade and weight determination at the destination point, the Company consistently records a sale at the time grain is shipped.

HEDGING

The Company generally follows a policy of hedging its grain transactions to protect gains and minimize losses due to market fluctuations. Gains and losses from these hedge transactions are reflected in the margins of the respective commodity.

INVENTORIES

Commodity inventories such as grain and fuels are valued at market (realizable value adjusted for freight, test weights, discounts and other differentials), including a provision for gains or losses on future sales and purchase commitments.

Merchandise inventories are valued at lower cost (first-in, first-out method) or net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation.

PROPERTY, PLANT & EQUIPMENT

Land, buildings and equipment are stated at cost. Depreciation methods are discussed in Note 5.

Maintenance and repairs are expensed as incurred. Expenditures for new facilities and those which increase the useful lives of the buildings and equipment are capitalized. When assets are sold or otherwise disposed of, the related cost and accumulated depreciation are removed from the accounts and gains or losses on the dispositions are recognized in earnings.

EQUITY IN OTHER ORGANIZATIONS

Equities in other organizations are recorded at cost, plus unredeemed patronage dividends received in the form of capital stock and other equities. Cooperative stocks are not transferable, thereby precluding any market value, but they may be used as collateral in securing loans. Patronage dividends received are recognized as income and any impairment of equities is not recognized by the Company until formal notification is received, or when there has been permanent impairment of the carrying value of the investment. Redemption of these equities is at the discretion of the various organizations.

MEMBERS' EQUITY

Common stock may be issued only to members who are agricultural producers or other users. Equities are issued and/or redeemed at par value. All equity transactions require Board of Director approval.

PATRONAGE DIVIDEND INCOME

Patronage refunds from other cooperatives are recognized as income in the year the Company receives notification from the distributing cooperative.

DISTRIBUTION OF NET SAVINGS

Net savings is allocated to patrons on a patronage basis, based on taxable income and in accordance with the articles and bylaws of the Company.

Patronage refunds to members of the cooperative may take the form of either qualified or nonqualified written notices of allocation. The terms qualified and nonqualified refer to the tax aspect of a refund. For a patronage refund to be qualified as an income tax deduction for the Company at least 20% of the refund must be paid in cash. A nonqualified refund then, is a refund where less than 20% of the refund is paid to the member in cash and does not qualify as a tax deduction for the Company.

Unallocated savings, after provision for income taxes, is accounted for as an addition to unallocated retained savings.

USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

REVENUE RECOGNITION

The Company provides a wide variety of products and services, from production agricultural inputs such as livestock feeds, crop nutrients, fuels and other farm supplies, to grain marketing, storage and drying services, agronomy spreading and spraying, transportation, and other agricultural related services. Sales are recorded upon transfer of title, which could occur at the time commodities are shipped or upon receipt by the customer, depending on the terms of the transaction. Service revenues are recorded once such services have been rendered. A large portion of the Company's revenues are attributable to forward commodity sales contracts, which are considered to be physically settled derivatives under ASC 815, *Derivatives and Hedging* (Topic 815). Revenues arising from derivative contracts accounted for under ASC 815 are specifically outside the scope of ASC Topic 606 and therefore not subject to the provisions of the new revenue recognition guidance. As such, the impact of adoption of the new revenue guidance has only been assessed for revenue from contracts that are not accounted for as derivative arrangements.

SALES TAXES

Various entities impose a sales tax on specific categories of the Company's sales. The Company collects the sales tax from patrons and remits the entire amount to the respective taxing authorities. The Company excludes the tax collected and remitted from sales and the cost of sales, respectively.

INCOME TAXES

The Company, as a non–exempt cooperative, is taxed on non-patronage earnings and any patronage earnings not paid or allocated to patrons.

The Company evaluates uncertain tax benefits arising from tax positions taken or expected to be taken based upon the likelihood of being sustained upon examination by applicable tax authorities. If the Company determines that a tax position is more likely than not of being sustained, it recognizes the largest amount of the arising benefit that is greater than 50% likely of being realized upon settlement in the financial statements. Any tax positions taken or expected to be taken that do not pass the more likely than not test, the Company establishes reserves offsetting the benefits related to such positions. Interest and penalties, if any, are included in the current period provision for income taxes in the Company's statements of savings and are included as a current liability in the balance sheets.

DEFERRED INCOME TAXES

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. The principal temporary differences are due to the use of different financial reporting and income tax methods for depreciation, bad debts, inventory capitalization and compensated absences.

LEASES

Leases which meet certain criteria are classified as capital leases, and assets and liabilities are recorded at amounts equal to the fair value of the leased properties at the beginning of the respective lease terms. Such assets are amortized evenly over the related lease terms of their economic lives. Leases which do not meet such criteria are classified as operating leases and related rentals are charged to expense as incurred.

ADVERTISING EXPENSES

The Company's advertising expenses are charged against income during the year in which they are incurred. Total advertising costs charged to expense for the years ended August 31, 2020 and 2019 are $224,662 and $194,354, respectively.

DERIVATIVE FINANCIAL INSTRUMENTS

The Company has only limited involvement with derivative financial instruments and does not use them for trading purposes. They are used to manage well–defined commodity price risks. The Company may use futures, forward, option and swap contracts to reduce the volatility of grain and fuels. These contracts permit final settlement by delivery of the specified commodity. These contracts are not designated as hedges as defined by the Derivatives and Hedging Topic of the FASB ASC. Unrealized gains or losses are recognized in the valuation of the respective commodity's ending inventory.

FAIR VALUE OF FINANCIAL INSTRUMENTS

The Fair Value Measurements and Disclosures Topic of the FASB ASC defines fair value as the price that would be received to sell an asset or paid to transfer a liability between market participants in the principal market or in the most advantageous market when no principal market exists. Market participants are assumed to be independent, knowledgeable, able and willing to transact an exchange and not under duress. Nonperformance or credit risk is considered when determining the fair value of liabilities. Considerable judgment may be required in interpreting market data used to develop the estimates of fair value. Accordingly, estimates of fair value presented herein are not necessarily indicative of the amounts that could be realized in a current or future market exchange.

Note 3: Concentrations of Risk

CREDIT RISK – FINANCIAL INSTITUTIONS

The Company had deposits with financial institutions in excess of insured limits in the amount of $0 and $1,328,201 at August 31, 2020 and 2019, respectively.

CREDIT RISK – RECEIVABLES

The Company is a locally owned agri–business supplier with facilities in Marion, Jasper and Mahaska counties. In the normal course of business, the Cooperative grants credit to customers, substantially all of whom are agricultural producers and members of the Cooperative residing and/or operating in the above–mentioned counties under standard terms without collateral. As these receivables are concentrated in the agricultural industry, collection of the receivables may be dependent upon economic returns from farm crop and livestock production. Additionally, the Company grants credit to other customers purchasing processed agricultural products in trade areas beyond the above counties. The Company's credit risks are continually reviewed and management believes that adequate allowances have been made for doubtful accounts.

CREDIT RISK – SUPPLIERS

The Company historically prepays for or makes deposits on undelivered inventories. Concentration of credit risk with respect to inventory advances, are primarily with a few major suppliers of agricultural inputs.

OFF-BALANCE SHEET RISK – COMMODITY CONTRACTS

Realized and unrealized gains and losses from futures and forward hedge contracts and commitments are included in gross savings. There is the possibility that future changes in market prices may make these contracts more or less valuable, thereby, subjecting them to market risk. Risk arises from changes in the value of these contracts and commitments and the potential inability of counterparties to perform under the terms of the contracts. There are numerous factors which may significantly influence the value of these contracts and commitments, including market volatility.

Note 4: Related Party Transactions

The Company, organized on a cooperative basis, conducts a substantial portion of their operations with members (owners) of the Company and has ownership interest in various regional cooperatives from whom they purchase products for resale and sell products to.

The Company sells supplies to and purchases grain from the Board of Directors and certain employees. The aggregate of these transactions is not significant to the financial statements.

The Company had trade receivables due from directors and employees of $52,653 and $55,277 as of August 31, 2020 and 2019, respectively.

The Company had patron credit balances due to directors and employees of $8,055 and $45,821 as of August 31, 2020 and 2019, respectively.

Note 5: Property, Plant & Equipment

The August 31, 2020 cost of depreciable assets by depreciation method is as follows:

	LIFE IN YEARS	STRAIGHT-LINE	DECLINING BALANCE	TOTAL
Buildings	7-50	$11,471,943	$ 0	$11,471,943

Depreciation expense in the amount of $1,478,495 and $1,428,158 has been charged against operations for the years ended August 31, 2020 and 2019, respectively.

Note 6: Equity in Other Organizations

Equity in other cooperatives consist of purchased equities, which are valued at cost, and equities received as patronage dividend income, which are carried at face value. Losses are recognized on these investments when the Company receives formal notification of loss allocations from the investee, or when there has been permanent impairment of the carrying value of the investment. Redemption of these equities is at the discretion of the various organizations, thereby making it impracticable to estimate future cash flows from these investments.

At August 31, 2020 and 2019 the Company had equity in other cooperatives as follows:

	2020	2019
CHS, Inc.	$2,978,519	$3,048,309
Land O'Lakes, Inc.	1,213,552	1,183,361

Others	12,256	12,254
	$5,046,897	**$5,010,565**

Note 7: Unpaid Grain

Unpaid grain at August 31, 2020 and 2019 consisted of deferred payment, price later, priced not paid and extended price grain contracts. Deferred payment, priced not paid and extended price contracts represents grain on which title has passed to the Company with payment to be made at a later date. Price later contracts represent grain on which title has passed to the Company with a price to be fixed at a later date. The Company includes these bushels as purchases and reflects the corresponding liability based on the bid price at August 31.

The contracts as of August 31, 2020 and 2019 are summarized as follows:

The CoBank, ACB notes are secured by a first mortgage lien on all real property owned by the Company and a security agreement covering all personal property, including inventory and accounts receivable arising from the sale thereof, subject only to first mortgages and security agreements for other contracts. They are further secured by $359,165 of equity in CoBank, ACB.

The loan with Community First Credit Union is under the Small Business Administration Paycheck Protection Program. The loan may be forgiven if certain criteria are met.

The loan agreements with CoBank, ACB, contain restrictive and affirmative covenants which provide, among other things; (1) restrictions on incurring additional indebtedness, (2) making loans to any one person or entity outside the ordinary course of business, (3) limitations on the type and amount of guarantees, and (4) maintaining certain levels of working capital on a monthly and year–end basis. The Company did incur additional indebtedness with Community First Credit Union, however, CoBank has waived any action on non-compliance.

Loan commitments in effect at August 31, 2020 and 2019, were as follows:

All stock will be issued at its par value. The Company may pay dividends not to exceed eight percent per year of par value on Classes G and H Preferred Stock, but will not pay dividends on any other class of its stock. Class A Common Stock is the only class of stock with voting rights. A person may only own one share of common stock.

Note 10: Pension Plans

Substantially all of the Company's employees participate in the Coop Retirement Plan, which is a multiple employer defined benefit plan that is funded by contributions from employer and employees and provides for monthly income for life upon retirement or upon total and permanent disability. The amount of benefits is based upon length of service and compensation. The plan is administered by United Benefits Group.

The Company intends to continue to participate in the plan indefinitely; however, it may voluntarily discontinue the plan at any time. The Company's annual contributions are consistently charged to expenses as they are due. The plan, which has no funding deficiencies, uses the aggregate cost method of valuations. Under this method, the normal cost is adjusted each year to reflect the experience under the plan, automatically spreading gains or losses over future years. The relative position of each employer associated with the plan, with respect, to the actuarial present value of accumulated benefits is not determinable.

The Company is one of approximately 400 employers that contributes to the Co–op Retirement Plan (the “Plan”), which is a defined benefit plan constituting a “multiple employer plan” under the Internal Revenue Code of 1986, as amended, and a “multiemployer plan” under the FASB Accounting Standards Master Glossary. The risks of participating in these multiemployer plans are different from single–employer plans in the following aspects:

a. Assets contributed to the multiemployer plan by one employer may be used to provide benefits to employees of other participating employers;

b. If a participating employer stops contributing to the plan, the unfunded obligations of the plan may be borne by the remaining participating employers; and

c. The Company intends to participate in the plan indefinitely, however it may voluntarily elect to discontinue the plan at any time, and may be required to pay the plan an amount based on the underfunded status of the plan, referred to as a withdrawal liability that could be material to the financial statements.

The Company’s participation in the Plan, including administration costs, for the years ended August 31, 2020 and 2019 is outlined in the table below:

			CONTRIBUTIONS	
PLAN NAME	EIN	PLAN NUMBER	2020	2019
Co–op Retirement Plan	01-0689331	001	$199,481	$218,568

The Company’s contributions for the years stated above constitute its total contributions made to all multiemployer plans and did not represent more than 5 percent of total contributions to the Plan as indicated in the Plan’s most recently available annual report (Form 5500). There have been no significant changes that affect the comparability of 2020 and 2019 contributions. Plan-level information is included in Form 5500 and therefore is available in the public domain.

The Company participates in a 401(k) thrift plan administered by Associated Benefits Corporation. The plan covers full–time employees over 21 years of age who have completed at least four months of continuous employment. Presently, only employee contributions are being made to the plan. The Company paid administration fees for the years ended August 31, 2020 and 2019 in the amount of $14,719 and $12,923, respectively.

Prior to the merger, employees of Farmers Cooperative Exchange and its joint venture Cornerstone Feeds participated in separate defined benefit plans administered by Associated Benefits Corporation. Each of these plans has been frozen and will remain frozen until each plan is terminated. The Company made no contributions to the plan for the years ended August 31, 2020 and 2019.

Termination surplus (deficit) for each of the plans for the years ended August 31, 2020 and 2019 were as follows:

	2020	2019
Farmers Cooperative Exchange	$80,727	$63,320
Cornerstone Feeds	(2,637)	1,082
	$78,090	**$64,402**

The Company made no contributions to the plan for the years ended August 31, 2020 and 2019.

The effects of any curtailments of the plan were not reasonably estimable at August 31, 2020 and 2019, and accordingly, the Company has not reflected any gains or losses.

Note 11: Income Taxes

Components of the provision for income tax expense (benefit) for the years ended August 31, 2020 and 2019 was as follows:

	2020	2019
Deferred Income Tax		
Current Year Provision	**$(52,047)**	**$8,350**

Total income tax expense for the years ended August 31, 2020 and 2019, was less than the normal amount computed by applying the U.S. federal income tax rate to savings before income taxes primarily because of the surtax exemption, permanent timing differences, and temporary timing differences creating deferred income taxes.

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Deferred taxes are classified as current or non-current, depending on the classification of the assets and liabilities to which they relate. Deferred taxes arising from timing differences that are not related to an asset or liability are classified as current or non-current depending on the periods in which the timing differences are expected to reverse.

Amounts for deferred tax assets and liabilities at August 31, 2020 and 2019 are as follows:

DEFERRED TAX ASSETS (LIABILITIES) – NON-CURRENT	2020	2019
Depreciation	$(1,823,114)	$(1,787,072)
Non-Qualified Allocation	1,273,033	1,158,723
Net Operating Loss	75,515	118,970
Accrued Compensated Absences	31,099	27,016
Allowance for Doubtful Accounts	20,402	8,021
263A	8,237	7,467
Acquired Customer List	2,092	2,092
	$ (412,736)	**$ (464,783)**

The Company files tax returns with the Internal Revenue Service and the State of Iowa.

At August 31, 2020 the Company has available an unused net operating loss carry forward of $228,833 that may be applied against future taxable income. The carry forward will expire August 31, 2032.

The Company has available unused federal tax credits totaling $116,506. The tax credits have a twenty year carry forward and will begin to expire August 31, 2038.

Note 12: Operating Leases

The Company has various non–cancelable and cancelable operating leases on property and equipment. Total lease expense for the years ended August 31, 2020 and 2019 was $699 and $72,911, respectively.

Minimum future rental payments under non–cancelable operating leases having remaining terms in excess of one year as of August 31, 2020, are as follows:

YEARS ENDING AUGUST 31	
2021	$21,732

Note 13: Fair Value Measurements

The Company determines the fair market value of its instruments as of August 31, 2020 and 2019 based on the three levels of fair value hierarchy which are:

Level 1 Values are based on unadjusted quoted prices in active markets for identical assets or liabilities. These assets or liabilities include commodity derivative contracts on the Chicago Board of Trade.

Level 2 Values are based on quoted prices for similar assets or liabilities in active markets, quoted prices for identical assets or liabilities exchanged in inactive markets.

Level 3 Values are based on unobservable inputs reflecting management's own assumptions and best estimates that market participants would use in pricing the asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth assets and liabilities measured at fair value and the respective levels to which fair value measurements are classified within the fair value hierarchy:

	FAIR VALUES AS OF AUGUST 31, 2020			
	LEVEL 1	LEVEL 2	LEVEL 3	TOTAL

	$279,248	**$797,607**	**$0**	**$1,076,855**

The carrying value of the Company's other financial instruments, consisting principally of cash, trade receivables, accounts payable, lines of credit and other obligations, approximates fair value due to the short–term maturity of these instruments. The carrying value of long-term borrowings approximates fair value as the interest the Company could obtain on similar debt instruments approximate the interest rates of current debt obligations. The Company's investments in other cooperatives are stated at cost. There is no established market for these investments, and it is not otherwise practical to determine the fair value of investments in cooperatives.

Note 14: Derivative Financial Instruments & Hedging Activities

The Company's purpose for entering into derivative and its overall risk management strategies are discussed in Note 2. The fair value of commodity derivatives is presented in Note 13. Additional information regarding the fair value of derivative transactions is as follows:

		FAIR VALUE AS OF AUGUST 31	
DERIVATIVE ASSETS:	BALANCE SHEET LOCATION	2020	2019
Open Futures Contracts	Margin Account	**$(170,508)**	**$(178,660)**

In addition, gains and losses on commodity derivatives are located in gross savings on sales in the Statements of Savings. Net gains on commodity futures contracts amounted to $296,960 and $842,447 for the years ended August 31, 2020 and 2019, respectively.

Note 15: Commitments & Contingencies

a. The Company is contingently liable for any weight or grade deficiencies that may occur at time of delivery on the following bushels of grain in storage under warehouse receipts or awaiting disposition at August 31, 2020:

DAILY POSITION RECORD (DPR)	CORN	OATS	SOYBEANS
Open Storage	202,128	74	92,747

Total Company Owned	125,220	2,268	71,224
Total Stocks Per DPR	**327,348**	**2,342**	**163,971**

b. The Company is subject to various federal and state regulations regarding the care, delivery and containment of products which the Company handles and has handled. The Company is contingently liable for any associated costs which could arise from the handling, delivery and containment of these products. These costs cannot be determined at present. While resolution of any such costs in the future may have an effect on the Company's financial results for a particular period, management believes any such future costs will not have a material adverse effect on the financial position of the Company as a whole.

c. The Company has entered into an agreement with The Cooperative Finance Association, Inc., where The Cooperative Finance Association, Inc. will provide input financing to certain company patrons. The Company agrees to perform services regarding the origination, servicing, and collection of completed documents from patrons and related parties. The Company will guarantee 0%–100% of the total non–collectible producer loan amounts, as well as 0%–100% of any expenses incurred by The Cooperative Finance Association, Inc., in the collection or attempted collection of any patron loan. Total outstanding balances as of August 31, 2020, are as follows:

Outstanding Principal Balance	$1,267,868
Accrued Interest	21,690
Guarantee Amount	377,424

Note 16: Subsequent Events

The extent the operational and financial impact of the COVID-19 pandemic may have on the Company has yet to be determined and is dependent on its duration and spread, any related operational restrictions, and the overall economy. The Company is unable to accurately predict how COVID-19 will affect the results of its operation as the severity and the duration of the pandemic are uncertain.

The Company has considered the effect, if any, that events occurring after the balance sheet date and up to October 27, 2020 have on the financial statements as presented. This date coincides with the date the financial statements were available to be issued.
